

## 204.7102

has not been established in the basic contract or by modification.

[56 FR 36289, July 31, 1991, as amended at 60 FR 34468, July 3, 1995]

### 204.7102 Policy.

(a) The numbering procedures of this subpart shall apply to all—

- (1) Solicitations;
- (2) Solicitation line and subline item numbers, if practicable;
- (3) Contracts as defined in FAR Subpart 2.1;
- (4) Contract line and subline item numbers;
- (5) Exhibits;
- (6) Exhibit line and subline items; and
- (7) Any other document expected to become part of the contract.

(b) The numbering procedures are mandatory for all contracts where separate contract line item numbers are assigned, unless—

(1) There are no postaward contract administration functions that the contracting officer will assign to an office listed in the Federal Directory of Contract Administration Services Components;

(2) The contract is an indefinite delivery type for petroleum products against which posts, camps, and stations issue delivery orders for products to be consumed by them; or

(3) The contract is a communications service authorization issued by the Defense Information Systems Agency's Defense Information Technology Contracting Organization.

[56 FR 36289, July 31, 1991, as amended at 56 FR 67212, Dec. 30, 1991; 60 FR 34468, July 3, 1995; 64 FR 61028, Nov. 9, 1999]

### 204.7103 Contract line items.

#### 204.7103-1 Criteria for establishing.

Contracts shall identify the items or services to be acquired as separate contract line items unless it is not feasible to do so.

(a) Contract line items shall have all four of the following characteristics; however, there are exceptions within the characteristics, which may make establishing a separate contract line item appropriate even though one of the characteristics appears to be missing—

## 48 CFR Ch. 2 (10-1-05 Edition)

(1) *Single unit price.* The item shall have a single unit price or a single total price, except—

(i) If the item is not separately priced (NSP) but the price is included in the unit price of another contract line item, enter NSP instead of the unit price;

(ii) When there are associated subline items, established for other than informational reasons, and those subline items are priced in accordance with 204.7104;

(iii) When the items or services are being acquired on a cost-reimbursement contract;

(iv) When the contract is for maintenance and repair services (e.g., a labor hour contract) and firm prices have been established for elements of the total price of an item but the actual number and quantity of the elements are not known until performance. The contracting officer may structure these contracts to reflect a firm or estimated total amount for each line item;

(v) When the contract line item is established to refer to an exhibit or an attachment (if management needs dictate that a unit price be entered, the price shall be set forth in the item description block and enclosed in parentheses); or

(vi) When the contract is an indefinite delivery type contract and provides that the price of an item shall be determined at the time a delivery order is placed and the price is influenced by such factors as the quantity ordered (e.g., 10-99 @ \$1.00, 100-249 @ \$.98, 250+ @ \$.95), the destination, the FOB point, or the type of packaging required.

(2) *Separately identifiable.* A contract line item must be identified separately from any other items or services on the contract.

(i) Supplies are separately identifiable if they have no more than one—

- (A) National stock number (NSN);
- (B) Item description; or
- (C) Manufacturer's part number.

(ii) Services are separately identifiable if they have no more than one—

- (A) Scope of work; or
- (B) Description of services.

(iii) This requirement does not apply if there are associated subline items,
